

Q. No. 2 (i)

TITLE:-

Television vs Newspapers

OR

Advantages and Disadvantages of Television & Newspapers.

Summary:-

This passage educates us on the advantages as well as disadvantages of both means of information i.e Television and Newspapers. Each of these means of media have qualities that the other lacks. Newspapers come in very handy to a busy person because it doesn't require a person to read the news at a specific time or place. Not only busy people other people have more freedom in getting news from newspaper because a person can easily take the newspaper along with him wherever he goes and the freedom to omit ^{reading} certain part of news ^{hand} is another advantages for newspaper reader. ^{On the other} Similarly, television news is quite limited. A person has to be at a certain place at a certain time to educate themselves on the headlines. It also brings laziness in us ~~and~~ ^{but} an illiterate person ~~also~~ has the advantage of getting to know about news since no reading is required the news on Television is visual as well as auditory so a person doesn't need to be a professional ~~and~~ in terms of language. Television viewers are also bound to watch all aspects of news so they don't have freedom of skipping news that doesn't ~~the~~ interest them. Newspapers require a person to be a master in a

Q. No. 2 (ii)

The following are advantages of reading newspapers

- Newspapers don't require us to sit at a specific place, at a specific time unlike television to read news.
- Newspaper readers have the freedom of skipping the columns of news that doesn't interest them
- People can carry newspapers along with them unlike television which is a whole equipment connected through power supply.

Q. No. 2 (iii)

Television has the following disadvantages.

- Television requires viewers to be at a specific place and time in order to watch the news
- It makes a person lazy and physically unfit
- There is not freedom of skipping the particular headlines and news that don't amuse us.
- Television news is very brief unlike newspapers that provide in depth coverage.

Q. No. 2 (iv)

While reading the newspaper a person needs to be good in terms of reading the words on the newspaper, meaning a person has to be fluent in the language and be able to understand it. This is only advantageous to an educated person who is proficient in the language. Unfortunately, not everyone in our country is educated many are illiterate person and they find ease ~~while~~^{by} watching news on television since much mastery of language and vocabulary is not require. The news of television is visual and auditory.

Q. No. 2 (v)

While sitting in front of television, a person mostly chooses to sit in weird posture that later makes their backs and limbs hurt. Too much exposure to the flickering light also causes eye damage as well as headaches which makes a person be a bed worm all the time. This way a person becomes lazy and idle.

Q. No. 2 (vi)

Personally, I prefer watching Television if I want to attain news. Its because, Television news is very fast and it contains visuals far better than newspapers. Furthermore, reading the newspaper is also quite time consuming. Though both means are great but since as^a students who doesn't have as much liesure time to read a newspaper I would stick to watching 5 minute headlines on the television.

PARAPHRASING

Poem:- Try Again

In this stanza the poet W.E. Hickson, beautifully portrays the importance of trying again and never losing hope. The poet says that there is this very valuable lesson we should learn and remember, that we should keep trying if we don't succeed at the first place. Life is full of ups and downs, we should just make sure to never lose hope, we should believe in ourselves and keep trying again and again and keep giving our level best. If we continue our efforts our bravery and courage will appear. So will our determination ^{which will} become as strong as well and if we keep continuing ^{our efforts} we will definitely succeed in the end and be a worthy winner of high levels of success. This is only possible if we remember the phrase "Try Again" and never lose hope.

Poem: RAIN

(i) The poet is conveying the moral lesson that after the darkness that emerges due to the ~~darkness~~ ^{heavy} and ^{of} rain clouds the wondrous and shiny light of the sun will ^{emerge and} fill light and joy equally of every single part of our Earth including the ~~rain~~ dark rain drops as well as the leaves and this sight will be breath taking and lovely. The poet describes the sun as a symbol of hope, equality, peace and joy. After the darkness subsides light will appear and the surroundings will bloom and be a symbol of life.

(ii)

When the sun emerges after rain fall, a shiny and wondrous light will fill everywhere equally on the land, water, leaves and the dark tiny rain drops. The light will fill in dark drops which will make it feel as if tiny diamonds and sparkling; Moreover, the ^{sunlight} ~~greenery~~ will cause the emergence of the lushious green color of the leaves and plants. The atmosphere will be breath taking and heavenly. All in all it will be such a lovely sight.

TYPICAL DAY AT SCHOOL

School has become a regular part of our lives. Typically I wake up at 6:00 am, get ready and pack my bag. Meanwhile, school bus arrives and there starts my route towards school. Ultimately, I arrive at school and first of all I arrive at the gate and greet my friends, teachers and the maids. Afterwards, I ~~unpack~~ ~~my~~ ~~bags~~ head towards my classroom and put my bag on the front row of the class. Subsequently, me and my friends then go outside at the ground and have general talks. After a while, the school bell rings and it's time to attend classes. ~~At~~ I attend my class and listen to teachers lecture attentively.

the class before break physically and mentally causes retardation so all I do is wait for break time. Ultimately, the school bell rings at 11:00 am and everyone rushes towards the canteen to eat junkfood. However, I don't eat junkfood since it makes me sick. In Addition to this after lunch, the 10 minutes we usually have before break time is over, is used up in either playing dodge ball or catch catch. The school bell rings and as a result, we all head to our classes. Attend the next 4 classes Although, it gets very tiring but we have to deal with it.

Finally, the bell rings and it's pack a bag

ESSAY:-CHOICE OF FUTURE CAREER

- Career has great importance in our daily lives. Everywhere, around us we see that after university education, majority of people start looking for jobs in order to support themselves and their families financially and earn a high standard of living. But choosing a particular career is of main importance. This is a very important decision and our ~~the~~ future lives depend on it.
- Career refers to who you ^{truly} are and what you want to be in life. When it comes down to choosing a career many people fall a prey to confusion. There is also psychological pressure ~~is~~ exerted on students by many people including families, friends and relatives. While choosing a career it is important to keep in mind that you don't only gain money and respect from it but you also find true love for your career and **mental satisfaction** is also a very important key point while choosing a career. There is no point in choosing a specific career, gaining money and respect but not find internal peace and interest towards it. Nowadays, middle class families only give their children two options either become a doctor

interests, goals and desires are not considered. This is such a wrong act and this thinking then passes through generations. Many Doctors and engineers in today's world usually have the reason for choosing careers like these because of money. Yes, it's true, being financially stable is an important thing but it's just not enough. What people don't realize is that there ARE other opportunities other jobs and career paths that would be good in terms of money and mental satisfaction. Unfortunately as living in Pakistan, there truly aren't many career options that would lead to successful life. Everyone goes towards the path of **pleasing the society** rather **pleasing him/herself**. Nowadays, many new opportunities have emerged. As the world is advancing there is an increase in job and vast career options. Long ago, Doctor, Engineer or Lawyer were considered to be the best careers but now we see that careers like Mass Communication, Accountants, Fashion Designers, Researchers, Biotechnology have emerged. Art subjects are emerging as new career options that would provide handsome salaries as well. Therefore it has to be kept in mind that there ~~is~~ is vast scope in every field and one must do thorough research before making the most important decision of life.

fields interest me the most. There are many options but for me aeronautical engineering just seems to be exactly where my interest lies. I have always been interested on how something so heavy like helicopters, airplanes, rockets can fly. Becoming an aeronautical engineer will require me to have a prestigious master's degree in either maths or physics^{at least}.

I'm glad I have done my research and thoroughly ~~thought~~ while attending career counselling lessons.

Of course, it won't be easy to become an aeronautical engineer but I am mentally and physically ready and prepared on what hurdles life has^{in store} for me.

Hopefully, after my hardwork I'll gain my future goal because till this time Allah has always blessed me. "I shoot for the moon and land among the stars."

- There are vast career options. It is important that a career that would give us mental satisfaction respect and will help us financially should be the one to opt. In addition to this, It has been observed that **15-16** yr old teenagers are not as mature to make a decision regarding their future career so **career**

counselling should be made effective. Every student has the right to know the full information advantages as well as disadvantages of a particular career.

Parents should be encouraged to support their child's interest and not lay stress among them. Evidently, we've seen it that ~~no~~ no matter what career you opt, hardworking person will always gain success and respect. Therefore
